

TOLOMEA

Tolomea è una variante del sistema Tre Vie caratterizzata da un piedistallo in ferro battuto composto da due piani che si intersecano l'uno con l'altro. Due aperture circolari ai lati consentono il perfetto adagiarsi della sfera portante su questi due piani.

A wrought-iron pedestal consisting of two slabs intersecting with each other characterizes the model Tolomea by the three-way system. Two circular openings on both sides allow the perfect reclining of the bearing sphere on these two surfaces.
